

# AMICRONews

What we can do for you...

December 27, 1996  
Number 10, Issue #10

Volume 1,

## Thanks To Our Many Customers For Another Great Year!

With this, our final issue of *AmicroNews* for 1996, we would like to take a minute to thank all of our customers who have made this year our best yet! Our sales (and client base) have more than quadrupled this year, and we look forward to a very strong and growth-centered 1997. We look forward to serving you in the new year. With the new year, however, will come change. Starting January 1st, we will be rolling out our new pricing structures for computer services and long-term contracts. We will be also offering separate rates for standard services (PC repair, etc.) and for "premiere" services (network support, software development). Look for all of these pricing changes in the January issue of *AmicroNews*. As always, if there is any way in which we can be of service, please call.

**6x86 PC Upgrade**  
**Give Your PC The Power of a 6x86 P120+ for only \$399**

This will be the *last time* this special is offered at \$399. If you would like to take advantage of our "no-strings-attached" computer upgrade special, then please call now and request document #21102 for details.

**Holiday<sup>2</sup> Special:**  
**System \$1597**

**PC P166+**

6x86 P166+, 256k pipeline burst cache, 16 MB RAM, 1.2 GB hard drive, 14" SVGA monitor (yes, the ~~monitor is included~~), 8-speed CD, sound card, speakers, 33.6 fax/modem, DOS/Windows or Win95, and more. Only **\$1597**. For complete details, call and request document #21103.

## Now That You Have A PC, Learn How To Use It!

Need to learn Microsoft Word, Excel, Access, Powerpoint, WordPerfect, DOS/Windows, Windows 95, or any other popular software application? Our *Executive Training Center* schedule is now available through March of 1997. If you are interested in our schedule of classes, or are interested in scheduling your own class, please call and request document #21101.

**For More Information**  
**716-837-4685**  
or 716-369-6235

*Thank you. We value your business.*

**AMICRON**  
TECHNOLOGY SERVICES

*AmicroNews* is published by Amicron Technology Services, circulation 5812. Our fax number is **716-833-6724**. You can Email us at [amicron@amicron.com](mailto:amicron@amicron.com). Please visit us on the World Wide Web at [www.amicron.com](http://www.amicron.com). Please call for more information on any of our services. And of course, if you would like to be removed from our fax newsletters, or would like to receive them during business hours only, please call. All prices listed are subject to availability and change without notice.

**Advertise Your Business**

Time is running out to have your company

listed in our *Business Resource Guide* - a small directory of local businesses to be faxed to over 15,000 companies in WNY. For info, request document #21104.

## Notebooks Available

Call for our complete line of notebook PCs. Call for document #21105.

## Private Consulting Assistance

We are now offering private on-site or in-house tutoring and consulting in Microsoft Word, Excel, Access, DOS, Windows, and more. Request document #21100 for complete information.

## We Are Your Source for

## Networking

Planning to install a network in your office this year? We have been installing computer networks for many years. Our network technicians are experts with Novell, Windows NT, Windows For Workgroups, and many other popular network software applications. Give us a call. Request document #21106, for our honest opinions on how you should network your office. Free advice never hurts.

## Visit Us Online!

Visit our web site on the Internet at [www.amicron.com](http://www.amicron.com). We're adding lots of new features over the next few weeks including a complete hypertext version of both *ComputerFAQs* and *AmicroNews*. What? You don't have Internet access!? Call and request document #21107 for information on how you can get a free month of our Internet

service. Can't beat that!

## **Your Data Stored Permanently on CD-ROM**

What is your data worth to you? We have the capability to put your information securely and permanently on CD-ROM. More than just a medium for backup, this

CD can be distributed and read by any standard CD-ROM drive. This is a great medium for copying large volumes of information for storage, data security, permanent backup (lasts hundreds of years), and distribution throughout your office. This is perfect for the the firm that has *lots* of data (customer files, perhaps), that need to be readily available, but you don't want them wasting hard drive space. Put them on CD! Call now and request

document **#21108** for more details.

## **Time For A Checkup?**

Don't forget, your computer is a sophisticated machine that - like your car - requires regular preventative maintenance. We recommend it at least once a year! Request document **#21109** For details on our *PCDoctor* special.
