Greetings And Welcome

to another issue of *AmicroNews*. We would like to remind everyone that the *Buffalo Computer & Business Show* is just over 2 months away. We hope to see everyone there. If you would like *free* tickets (hey, who takes care of you like we do?) then please call. Also, we would like to remind everyone that we have recently added new tech-support staff and are now able to offer *same-day* priority service to our valued customers. If you would like information, please call and request document **#707291.**

COMPUTERS

LEASING AVAILABLE

Amicron Alpha: P166+, 16 MB RAM, 2.1 GB Hard Drive, *Perfect for the office on a budget,* only **$881.**

Amicron Beta: 6x86 P200+, 32 MB RAM, 2.1 GB Hard Drive, 8X CD-ROM Drive, *Our mid-range business PC,* only **$1089.**

Amicron Delta: K6-166 MMX, 32 MB RAM, 2.1 GB Hard Drive, 2 MB Video, 12X CD-ROM Drive & 16-bit Sound, 33.6 FaxModem, *A PC for high-end applications,* only **$1467.**

Amicron Gamma: K6-233 MMX, 64 MB RAM, 4.1 GB Hard Drive, 4 MB Video, 24X CD-ROM Drive & AWE64 Sound, 56K Voice/FaxModem, *The Ultimate Office PC,* only **$2602.**

If you are interested in any of these computer systems, or would simply like more information on our complete line, please call and request document **#707292.** We can also custom build a system to your specifications. Call for details.

SyJet 1.5 GB Drives

The SyJet drive is a removable media drive. This means you don't have to worry about running out of hard drive space. You buy the drive once and you just add a new *inexpensive* cartridge when it fills up. That's 1.5 GIGABYTES at a shot. The SyJet 1.5 GB EIDE internal drive is only $438 *installed*. Please call and request document **#707293**.

Time To Clean Your System?

Just like your car, your computer needs regular preventative maintenance. Our *PCDoctor* service includes a complete cleaning of your system, standard diagnostics, and an optimization of your hard drive. *PCDoctor* is only $49 carry-in or $59 in your office. Request document **#707294.**

TRAINING

What good is your computer if you don't know how to use it properly? Here are just a few of the classes we have coming up:

Microsoft Windows 95: Wed 8/6, Tue 8/12, Mon 8/18, Wed 8/27, Fri 9/5

Microsoft Word: Thu 8/7, Mon 8/11, Tue 8/19, Thu 8/21, Tue 8/26

Microsoft Excel: Wed 8/6, Mon 8/11, Wed 8/20, Mon 8/25

Microsoft Access: Mon 8/4, Wed 8/13, Tue 8/19, Wed 8/27

WordPerfect: Tue 8/5, Fri 8/8, Mon 8/25, Thu 9/11

We have many more classes available. Please call and request document **#707295** for a complete schedule, pricing, and more information on our classes.

Also, we have already completely filled up our first *Microsoft Access Developer Course*, but we have scheduled dates for another. If you are interested in learning how to build professional database applications using Microsoft Access, call and request document **#707296.**

Upgrade Your Old

486

To A Blazing Fast

6x86 to K6-233 MMX

We can upgrade most 486 systems with a new 6x86 (Pentium-class) or K6 motherboard and processor for a fraction of the cost of a new system. Upgrade to a 6x86 P166+ motherboard and processor for only **$348** (includes pickup of your system, the new motherboard, processor, cooling fan, and return delivery of your system). Upgrade to a 6x86 P200+ for only **$489.** Upgrade to a K6-200 for only **$729.** Add in 16 MB of RAM for only **$141.** If you would like complete information on this upgrade special, please call and request document **#707297.** Y*ou shouldn't have to wait for your computer.*

Software Picks Of The Month: We have many discounted software packages available for up to 25% off retail. Call and request document **#707298** for a complete listing.

Your Software/Data On CD-ROM: We can take your applications or data and put them on a CD that will work in any standard CD-ROM drive. Perfect for archival or storage needs where you need quick and easy access to your data. Request document **#707299.**

Is your software in the Dark Ages?

Do you have newer computer systems in your office, but you're still running ancient DOS-based software? We can take your old DOS database applications and re-write them with a nice new efficient Windows-based user interface. You will benefit from the increased functionality and user friendliness of a Windows application. If you would like more info, please call for document **#707290.**

NETWORK

We have installed many small- to mid-sized office networks. From what people are telling us the reason why most small businesses don't network sooner is because they're anticipating spending thousands of dollars. *It doesn't have to be expensive to network your office.* Most small offices (2-5 computers) can be networked for around $400 to $700. If you're running Windows 95 or NT, there is *no* additional software to buy and you don't need an expensive file server. A minimal investment when you consider the advantages that a networked office can bring: sharing files, CD-ROM drives, shared applications such as a customer/accounting database that you will all have access to at the same time, and more. If you are interested in how we can help network your office, request document **#707301.**
